Victor Adighibe

Software Engineer

Experienced front-end software engineer delivering high-performance, accessible web applications. Expertise in diverse technology stacks, emphasizing user experience and scalability.

Work Experience

JiffyPay — February 2023 - present
Frontend Engineer

- Collaborated with designers and developers to ensure consistent user experiences in SimpooBusiness, a streamlined inventory management solution.
- I actively participated in agile development methodologies, contributing to sprint planning, stand-up meetings, and retrospective sessions.
- Developed and implemented responsive and visually appealing user interfaces, adhering to project requirements and design specifications.
- Conducted regular code reviews and provided constructive feedback to ensure code quality and adherence to best practices.
- Maintained effective communication channels with the team, ensuring smooth coordination and efficient progress of project tasks.

Hx Africa — July 2022 - Jan 2023
Contract - Principal Frontend Engineer

Hx Africa is a cutting-edge real estate investment company that utilizes blockchain technology to provide a secure and efficient platform for investors.

- Developed and implemented responsive, user-friendly interfaces for the HxAfrica web application, resulting in improved user engagement and satisfaction.
- Collaborated closely with cross-functional teams, to translate project requirements into effective front-end solutions.
- Stayed up-to-date with emerging trends and technologies in the front-end development landscape, proposing and implementing innovative solutions.
