# Victor Adighibe

## Software Engineer

Lead Frontend Engineer with 7+ years of experience building scalable, user-centric web applications. Proven track record architecting high-performance React/Nextjs interfaces at fast-growing startups, driving product adoption and operational efficiency. Passionate about mentoring teams, optimizing performance, and delivering seamless user experience.

## Work Experience

### Dora - Lead Frontend Engineer (freelance)
**June 2023 - present**

- Leading the frontend engineering team at Dora, an all-in-one delivery management platform helping businesses organize, manage, and scale local logistics operations.
- Architecting and implementing scalable, maintainable frontend solutions using React.js, Next.js, and TailwindCSS.
- Collaborating with product managers, designers, and backend engineers to deliver intuitive, high-performing user experiences.
- Establishing frontend coding standards, best practices, and review processes to maintain code quality across the team.
- Mentoring junior developers and contributing to technical planning for new product features.

### JiffyPay - Lead Frontend Engineer
**February 2023 - present**

- Developed responsive, visually appealing UIs for SimpooBusiness, an inventory management solution.
- Collaborated with designers and engineers to deliver consistent user experiences.
- Participated actively in Agile processes: sprint planning, stand-ups, retrospectives.
- Conducted code reviews to maintain code quality and best practices.

### Hx Africa - Principal Frontend Engineer
**July 2022 - November 2022**

- Built and maintained responsive, blockchain-enabled real estate investment interfaces.
- Worked cross-functionally to translate project needs into frontend solutions.
- Continuously proposed and implemented UI/UX enhancements.
- Led code maintenance and updates to ensure system stability.
